The increased consumption is due principally to prohibition, Mr. Goetz asserted.

**EVIDENCE OF SHIPPING
BOARD IRREGULARITIES**

New York, Nov. 10.—Additional evidence of alleged irregularities and mismanagement in the affairs of the United States shipping board were introduced here today before the congressional committee investigating the affairs of the board by J. F. Richardson, assistant secretary and statistician of the committee, in concluding his direct testimony. The investigation is based largely upon a report submitted by Mr. Richardson and A. M. Fisher, secretary and statistician of the committee, after a year's work.

Chairman Walsh announced that Com-

to the Admiral Benson, chairman of the shipping board, would be a witness the following morning. Chairman Walsh read a telegram from Admiral Benson which stated that the board would not object to Commander Clements testifying, and that the records, officers and employees of the board were at the disposal of the committee at any time or place the committee desired."

and other officials of the board, as well as Charles M. Schwab and Charles E.

Cross examination by Congressman Henry J. Steele of Mr. Richardson took up much of the afternoon session. Characterizing the witness' previous testimony as a "general indictment," Mr. Steele sought to bring out specific instances of alleged "political influences," favoritism

"The purpose of our criticism," he said, "is, we hope, to bring out existing conditions so they may be rectified by the shipping board itself. I want to give full credit to the board for its achievements. It had a gigantic task—one of the greatest ever met by men."

SO DOWN GO THE PRICES—DOWN TO A LEVEL WHICH LOOKS MORE LIKE OLD TIMES THAN ANY WHICH YOU HAVE SEEN FOR A LONG TIME—AND THE GOODS ARE ALL REGULAR BOSTON STORE QUALITY.
